July 22, 2002

To Whom It May Concern:

On April 24, 2002, I asked Bethany Thompson to assist me in illustrating a children's book, *The Word House™*. Miss Thompson immediately began to illustrate my stories and on June 8, 2002, we were ready to ship one of the most beautifully illustrated children's books you will find in any bookstore.

The company I used to print *The Word House™*, Kennickell Printing Company of Savannah, Georgia, has been in business since 1898. My sales representative and the owner of the company both said they had never seen illustrations that were better.

Needless to say, I am thrilled with my book and sales are going well.

In 2001, Bethany created my webpage. She designed the page layouts and wrote the text describing my product. Ms. Thompson monitors and changes my website in order to keep it up to date.

I highly recommend Ms. Thompson's company to anyone interested in web page design and in illustrations for books. My sales have increased as a direct result of her web page design for me. My customers now have easy access to information and order forms for my products.

My company, Cupp Publishers, Inc., produces educational material for teaching reading. Ms. Thompson, not only designed my website, she also spent time learning about my products in order to include links to other websites.

I would welcome any phone calls to discuss her work.

Sincerely,

Cindy Cupp, Ed.D.
