To Whom it may concern:

This is a letter of recommendation for Bethany Thompson of Box 1166, Cordova, Alaska. I have known Bethany for over 3 years, since she put together a web site about shorebirds for the Cordova Chamber of Commerce. I have worked with her as a guide for Copper River and Northwestern Tours. Bethany developed a web site for my recent book, ***Country Self-Sufficiency***. She did an excellent job developing the site and has helped with creating a domain and links for advertising the book.

Bethany also helped with designing the color cover of my book. She is a promising artist.

Bethany works well with little supervision and direction. She is quite fast and efficient when working with web sites. She also is familiar with all sorts of computer equipment and peripherals.

I strongly recommend Bethany Thompson for computer-related jobs and for her artistic abilities. Please call me at 907-424-5111 if you need further details or information.

Sincerely,

Pete Mickelson, Ph.D.
